E. N. Salling, of Manistee, was in Grayling this week for a few days on business, but left for home on Wednesday morning.

Fred Richmond, of South Branch, is taking in the institute this week and enjoying himself to the fullest extent. He drew his rations at the Grayling House.

A lot of worthless cures about the town, misuse themselves by chasing cattle, as they are going to the river for water. A valuable cow belonging to M. S. Hartwick, was killed by them last week. Load up the guns.

For drainage and for water, common water works are still frozen up and the town would be at the mercy of the rains should a big break out. The water works there are of no account at any time, except to increase the taxes, but as the people never drink water, they do not miss it.

It is about time to prepare for spring painting. Remember that Boydel's Bro's paints, manufactured from strictly pure white lead and zinc, and prepared ready for the brush, in all shades and in every respect the cheapest and best in the market are for sale by Wm. A. Masters.

Dr. Russell, of South Branch, who is attending the Teacher's Institute, this week, made a pleasant call on us, and passed a few minutes in a most interesting conversation. He is greatly interested in the education of the youth of Crawford County, and the success of the AVALANCHE.

Jas. Prior, of Kathlamet, was killed in Wm. Eckler's lumber camp near the north-east corner of the county, on Monday last, by a tree splitting up and falling on him. He was badly mangled. Although somewhat acquainted with the unfortunate man, we do not know whether he leaves a family or not. —Contd.

After June next the postage on letters will be two cents for each ounce of weight, or fractional part thereof, instead of each half ounce as at present. This will be a great convenience to the public, and will make our letter carrying distance considered the cheapest in the world. At the same time the newspaper postage from the office will be reduced from two cents a pound to one.

There is considerable excitement in our city at present, over the superabundance of dogs and how they should be disposed of. Shoppemagun gives our readers his views on the subject in a rather unique manner. They are a nuisance, and the Supervisors at their next meeting should resolve on the subject. If one of their long winded resolutions don't drive them away, there is no use in trying to do it with cold lead and strychnine.

G. W. Love, Supervisor of Center Plains, called on us a few days since, with the model of his recent invention for trimming strawberry plants. If we are judge of the machine, it will prove a nuisance, not only to the inventor, but to all who are engaged in raising this fruit, as the labor of cutting runners, which has heretofore been an enormous expense, will be reduced to almost nothing. It is simple, durable and not expensive, and we believe, perfectly adapted to the work. A stock company has been organized here to purchase the invention.

Come out to caucus next Saturday.

Wm. Hayes, of Bradford Lake, Ont. County, has a yoke of three year old steers, well broke, which he will trade for a horse, or sell for cash.

Owing to the grand success of their last masquerade, and to the constant appeals for a repetition of the same, the wide awake managers of our Roller Skating Rink, have decided to give another Grand Masquerade Party, on the evening of April 3rd.

The new lodge starts out under very flattering auspices, with a large increase of membership. The following officers were elected for the ensuing year, and were duly installed by Deputy Grand Master Greenville, of Detroit:

Master, W. F. Thatcher
Warden, W. McCullough
Secretary, J. C. Hanson
Treasurer, P. Rasmussen
Counselor, F. D. Robinson

Teacher's Institute.
As per announcement, the Teacher's Institute for Crawford and Roscommon counties, convened on Monday, at this place, conducted by Messrs. Pettigill of Grand Rapids, and Enos of Cadillac. Forty teachers are enrolled and the interest is constantly increasing.

An entertainment was given by the pupils of the High School, on Monday Evening, and a lecture Tuesday Evening by Prof. Pettigill, which were largely attended and thoroughly enjoyed by our citizens, who are wide awake in educational matters. The exercises are made more pleasant by music furnished by the Grayling Glee Club. We expect to give a full report of the institute next week.

There has never been seen in this section of the State, such an immense stock of Spring goods as are now crowded into the Mammoth Store of Salling, Hanson & Co. And what will please our citizens more, is the fact that the selections are far different from those of previous years, comporting in elegance and variety with the growing wants of our prosperous community.

The ladies can now find at home, and at prices that defy competition, full lines of Silks, Satins, Cashmeres, the latest styles in Washington Brocades, Ginghams and Prints, Embroidery, Insertions, Laces, Corsets, Gloves, Hosiery and Handkerchiefs. Everybody is invited to call and examine goods and prices, whether they desire to purchase or not, being assured of courteous treatment. Read their specials in this issue.

To the Friends of Grayling.
Dear Friends of Grayling: I put this piece of paper in this office. Friends I do not like to see this. It would be better to be friends with each other than to be enemies. Those that live here in town of Grayling, as every other town is unprepared not to be as good as ours.

Whenever I go outside my part of the State, they would ask me about Grayling. I would say there are better people there in Grayling, than here, that is always my answer. And I, myself, try to do the best I can. The reason I say this for, is they will be trouble soon, on account of the dogs. Some of the dogs are good and others are not. Some dogs are watch dogs. They are quite useful, and this female dog, whose dog it is, wants to keep it, good, keep it at home or chained if he wants it. That is the reason there are so many dogs around town; he doesn't keep it at home. And another reason they are poisoned. That is not right. We have not only dogs, we have some other enemies besides a dog. The law doesn't say to kill dogs right in the town. The only way I heard, is when a dog chases a deer in the fall, only they can shoot it. But to shoot here in town, and putting poison, that's not right, it makes some of our friends sorry for the loss of their useful dog.

I am sincerely your friend,
DAVID SHIPPENAGAN.
